Thomas KERGOAT

+33 6 61 84 31 68 | Rennes, France | thomaskergoat35@gmail.com

Profile

Currently an engineering student at ENSEEIHT after completing two years of MP preparatory classes, I am seeking an internship in [field].
Curious, rigorous, and highly analytical, I enjoy understanding, modelling, and solving complex problems.

Skills

- **Languages & Certification** : French (native), English (TOEIC certified), Spanish (notions), PSC1
- **Programming** : Python, C, HTML/CSS, JavaScript, LaTeX, Office
- **Electronics** : Arduino, LTspice

Education

ENSEEIHT (Toulouse INP) — Toulouse, France
Engineering degree — *Sep 2026 — Present*
- Major interests: telecommunications, embedded systems, computer science and applied mathematics

Lycée Sainte-Geneviève — Versailles, France
Preparatory classes MPSI/MP — *Sep 2024 — Jun 2026*
- Intensive programme in mathematics, physics and engineering sciences

Lycée Jean-Paul II — Rennes, France
French Baccalauréat - Graduated with Highest Honours and Jury Congratulations — *Sep 2021 — Jun 2024*
- Specialisations: Mathematics, Physics and Computer Science. European Section
- Class representative

Experience

Discovery Internship — 2022
Artefacto
- Explored 3D modelling and virtual reality technologies
- Observed the development of immersive applications for professional use

Discovery Internship — 2021
Sodalec
- Observed electronics manufacturing and testing procedures
- Explored industrial production and quality-control processes

Youth Basketball Coach & Referee — 2016 — 2024
USG Basket Saint-Grégoire — *Saint-Grégoire, France*
- Coached players aged 7 to 15 during trainings and camps
- Officiated competitive games, ensured fair play under pressure

Projects

Scientific Competitions — 2018–2024
- Participated in numerous mathematics and computer science competitions, including the Concours Général, Mathematics Olympiads and Algoréa
- **TFJM²** : won the regional tournament at ENS Rennes and finished 5th nationally

Programming Projects — 2025–2026
- Developed Snake and Minesweeper games in C and Python and built several websites

Civic Engagement and Activities

Civic Engagement — 2023–Present
- Service National Universel (12-day civic service programme)
- Volunteered in food distribution and local clean-up initiatives in Saint-Grégoire

Sports & Clubs — 10+ years
- Competitive basketball player for over ten years; also practised judo and badminton
- Member of the Rennes Mathematics Club (University of Rennes)
